HAYWARD, CA 94542

PROFILE SUMMARY

Strategic finance executive with a track record of turning around underperforming businesses, scaling operations through acquisitions, and positioning companies for successful exits. Equally comfortable architecting long-range growth roadmaps and rolling up sleeves to restructure capital, optimize liquidity, and build the operational infrastructure that sustains profitability. Experienced leading cross-functional organizations through complexity, from M&A diligence and integration to ERP implementation and cost transformation. Brings a CFO's financial discipline with an operator's instinct for execution, making an immediate impact on enterprise value while keeping teams aligned and organizations moving forward.

- Executing Growth strategies such as developing new business verticals to increase sales and M&A opportunities.
- Transformational CFO leading Financial Reporting & Analysis, Audits, Tax, and Banking Relationship for East Bay Logistics, LLC.
- Leading networkwide vendor rationalization, reporting, AI automation, and developing talent to compete in the 3PL marketplace.
- Developing Transportation and Pick and Pack Services to increase service offerings to the customers using SEO Marketing.
- Collaborating w/ leadership to manage key customer and vendor relationships to provide end-to-end supply chain management.
- Leading company-sensitive labor negotiations with external lawyers.
- Moving all financial processes and accounting to the West Coast.

Chief Financial Officer – East Bay Logistics, Inc (Promoted Jan 2024)

2023-2025

Strategic Finance & Growth Leadership

- Milestones 1: East Bay Logistics, Inc., financial turnaround in 2023-2024.
- Milestones 2: Acquired three companies to scale revenues: The Green Room Inc., Sunrise Distribution, and Roasterworks.
- Milestones 3: Led East Bay through an Exit in Nov 2025.

- Spearheading the financial transformation of a mid-market logistics firm focused on warehousing the Coffee, Cocoa, & Sugar industry. East Bay Logistics & its subsidiaries also provide value-added services, including B2B Logistics, fulfillment centers, and Food Processing Plant services: Cocoa Butter, Tapioca, Liquor, & Sugar Melting. I delivered a full-scale turnaround: increased top-line revenue by 40%, EBITDA by 44%, and net income by 14.86%, while optimizing the capital structure to enhance solvency and acquisition readiness, including talent offshoring to improve efficiency and reduce costs.
- Lead the design and execution of a 1–5-year strategic roadmap yielding 15% organic and 25% inorganic growth, including the acquisition of The Green Room; aligned expansion efforts with long-term ownership transition planning and investor expectations.
- **Led the exit of East Bay Logistics at 2x valuation; Directed end-to-end M&A (buy and sell side) efforts**—from target identification and valuation through diligence, negotiation, and integration—collaborating closely with banks, legal counsel, auditors, and executive leadership. .

Capital Strategy & Liquidity Optimization

- Secure diversified capital sources, including lines of credit, equipment/software financing, and lease renegotiations, to unlock operational liquidity and fund expansion.
- Implement advanced financial systems (QuickBooks Enterprise, Camelot WMS, Website), launched lead generation SEO/Email Marketing, and AI-driven initiatives to increase Top-line, reduce COGS and G&A overhead, and grow margins/ enterprise value.
- Restructured payables from 360 to 45 days and improved collections cycle from 70+ to 30 days, significantly enhancing cash flow; eliminated legacy liens and UCC filings, raising Pay Index score from 56 to 79.

Controllershship & Audit Readiness

- Reduce monthly close cycle from 12 to 5 business days by overhauling accounting workflows and modernizing internal controls; ensured audit readiness for FY22–FY25 and led preparation for Quality of Earnings reviews.
- Improve financial reporting accuracy and transparency, enhance stakeholder trust with board members, external auditors, and lenders; led financial planning and forecasting processes across all business units.

Regulatory, Tax & Stakeholder Reporting

- Led risk mitigation and compliance strategy, including insurance and workers' compensation oversight; collaborated with legal and tax advisory teams to reduce tax liabilities and streamline regulatory reporting.
- Delivered accurate and timely financial communications to executive stakeholders, board members, and institutional lenders; supported CEO and ownership through investor engagement and audit presentations.

Senior Manager, Finance – FP&A (promoted from Finance Manager)**2020 – 2022***Motive – San Francisco, CA*

- Led development of \$300M–\$500M revenue and product demand forecasts and managed \$200M in supply chain spend; created highly accurate statistical forecasting models achieving over 90% precision.
- Designed long-term 5-year revenue model in collaboration with Product, GTM, Supply Chain, and Operations teams; built detailed 3-statement financial models to support equity and debt fundraising efforts.
- Partnered with the GTM team to create recurring revenue waterfall analysis, churn prediction, and complex subscription forecasting models, optimizing revenue predictability and strategic planning.
- Delivered executive-level insights by producing KPI dashboards and Board reporting using Tableau and standardized financial views to support investor communications and IPO-readiness.
- Led cross-functional initiatives to improve profitability ahead of IPO, including a scalable subscription cost forecast that drove savings on ATT and AWS contracts over four- and five-year horizons.

Manager II, Financial Reporting & Controls – Controllershship**2018 – 2020***Walmart E-Commerce – San Francisco, CA*

- Managed \$1.5B in accounts payable and inventory across 20 distribution centers, leading a team of five U.S.- and India-based analysts to deliver accurate financial reporting and control.
- Oversaw month-end close processes, including journal entries, reconciliations, and inventory reporting, ensuring accuracy and timeliness of financial statements.
- Strengthened gross profit reconciliation processes and implemented improvements to AP and inventory workflows, accelerating responsiveness to income statement and balance sheet changes.
- Established and tested accounting processes for new distribution centers, ensuring compliance with corporate and regulatory standards.
- Directed the development and delivery of balance sheet reporting packages for senior leadership, driving transparency and insight into operational performance.
- Partnered with PwC to support quarterly and annual SOX 404 internal control audits, ensuring financial compliance requirements.

Manager / Principal, Corporate Business Services & Analytics (promoted from Senior Analyst)**2013 – 2018**

VICK ANAND, CPA

Pacific Gas & Electric (PG&E) – San Francisco, CA

- Recruited by VP of Strategy & Analytics; Oversaw \$1.3B in annual Corporate Business Services spend, including budgeting and forecasting for the Diablo Canyon nuclear power plant; provided strategic guidance on commodity pricing and cost management.
- Achieved \$300M in cost reductions in collaboration with Bain & Company by leading company-wide cost-cutting initiatives and market intelligence reporting.
- Delivered \$70M in additional savings across 100+ enterprise-wide initiatives through rigorous financial analysis, cost modeling, and strategic prioritization.
- Developed and presented 1-year and 5-year strategic business cases with ROI justification, securing approvals from seven EVPs and over 30 senior executives.
- Built and implemented a 5-year, \$1.7B General & Administrative spend plan aligned with corporate performance targets and long-range planning.
- Supported executive decision-making through advanced analytics, forecasting models, and business case development, driving efficiency and financial accountability across the enterprise.
